

# Blue Cheer, Fighting Star

(Dickie Peterson)  
Yeahaiigh!

Took a walk down by the industrial park  
You know the night was dark  
I heard the guard dog bark  
I turned around  
As the air came down  
And a man with a knife  
Tried to take my life  
In a flash  
I leaped in defense  
And I did him in  
By the chain-link fence.

I flew into the air like a fighting star  
I take 'em everywhere like a fighting star  
A fighting star  
Yeah fighting star.

I took a car down to the end of the land  
You know I held her hand  
We took a walk in the sand  
Twenty guys jumped us by surprise  
And they grabbed my girl  
In a battered whirl  
I heard her scream  
I went berserk in my head  
And I did not stop  
Until the beach turned red.

I flew into the air like a fighting star  
I take 'em everywhere like a fighting star  
A fighting star  
A fighting star, Ye-ah! (alright, oh yeah, do-do-do-do oh)

My mama was a lightning flash  
My daddy was a hurricane  
I'm deadly as a scorpion  
Cited as a holy name  
I listen to a fire in me  
With blood it was so dark as the sky  
And hell breaks loose  
Yooooow! Yeah!

I flew into the air like a fighting star  
I take 'em everywhere like a fighting star  
I flew into the air like a fighting star  
I take 'em everywhere like a fighting star  
A fighting star  
Yeah fighting star  
Ye-ay!
