

# Blue Cheer, Nightmares

(Dickie Peterson)

OH!

I have known her and chew me to the bone  
A thousand faces and still she stands alone  
But I can't change her  
Oh cause she likes it that way  
She got one foot on my heart  
And she got one in my brain.

She's a nightmare  
Yeah, she's a nightmare  
Oh no, she's a nightmare  
Hey, she's a nightmare.

Inside her, Lord late at night  
A-rolling through the backstreets  
Of your life  
Well you never see her in the light of day  
Cause she's a wide, wide range of breeding strange.

She's a nightmare  
She's a nightmare  
Oh what a nightmare  
Oh no, she's a nightmare.

Late at night, when you lay sleeping  
Your nightmare comes creeping around.

I have known her from the depth of fear  
I have had her lower lightning here  
But I wouldn't change her  
Because I like her that way  
Cause she's a wide, wide range of breeding strange.

She's a nightmare  
She's a nightmare  
Oh what a nightmare  
She's a nightmare  
Oh she's a nightmare  
Oh what a nightmare  
I know she's a nightmare  
I know, I know she's a nightmare, OH!

She's a nightmare  
Oh she's a nightmare  
I know, an obscene nightmare  
Yeah, she's a nightmare  
OOOOOOHHHHHHH!
