

Blue Cheer, When It All Gets Old

(Ralph Burns Kellogg)

Let's find a darker night

Let's find a brighter light

Let's go away to some place strange

And bring back a whole new change.

Let's find a different kind of sun

Let's find a different kind of fun

Let's go away just you and me

And do it all through the day.

(Ah.....) Let's find a different set

(Ah.....) I know we're gonna make it next.

After it all gets old

And after all the stories are told

We'll go away to some place strange

And bring back a whole new change.
