

Blue Foundation, Save This Town

Come around to this fine town

Where freedom makes the world go round

And where dreams are found

And carried out

Even in the afternoon

You can go there fishing for the moon

And the fairy lights

Glow like fireflies

Come on save it

Come on save it

Every single one

Come on save it

Come on save this town

Growing from diversity

Out of true originality

It's the place to be

And that's why

I fear the need to standardise

And I fear the guys with normal eyes

It's a precious child

Come give it a try

And we try

Every single one

Come on save it

Come on save this town

I know that we can't save this town alone

So this is why I say

Come on and raise your voice

And spread these words around:

Come on save it

Come on save it

Every single one

Come on save it

Come on save this town
