

# Blue October, Colorado 5591

a simple love song  
a simple love gone wrong  
a simple way to cope  
with six years of lovestrong  
then gone

i speak of colorado 5591  
where there's a paxil-plated morning sun  
a hug every now and then from everyone  
colorado 5591

but would you take it away, boys?  
take it away  
would you take this pain away?  
take it away  
would you take it away, boys?  
take it away

and through this mad parade i walked alone  
and tried to find music to my own song  
but the music too loud or the crowd too strong  
i kept to myself, i kept alone

and many friends that i have lost  
and many friends that i've found  
we all wanna stay on common ground  
we've got to find this common ground

but would you take it away, boys?  
take it away  
would you take my pain away?  
take it away  
would you take it away, boys?  
take it away
