

# Blue October, Graceful Dancing

Describe the pain  
It choked your reality  
It's all in your mind  
She said it  
Instead you go graceful dancing  
You close the door  
on the war I started last Halloween  
I'm gonna be fine again  
You got to keep graceful dancing  
Oh

Here we are  
And you're a super star on your own  
And I'm looking over your shoulder  
Getting older and God only knows  
That here we are  
And you're a super star on your own  
Now here we are  
Your sunset reigns  
Like a bullet hole  
Trees only seems for hanging  
A moon is a target range  
And rivers seem only for drowning  
You fall away and then you starve  
To finish your painting  
Well its gonna take time my friends  
You have to keep graceful dancing  
Oh

Here we are  
And you're a super star on your own  
And I'm looking over your shoulder getting older  
And God only knows that here we are  
And you're a super star on your own  
Now here we are

Who knows  
That here we are  
And you're a super star on your own  
And I'm looking over your shoulder getting older  
And god only knows  
That here we are  
And you're a super star on your own  
Now here we are
