

Blue October, Holler

When you holler baby
When you holler at me
What you want me to be
When you holler baby
When you holler at me
What you want me to

I won't be strong and I won't brave
I never stay
Because you don't treat me the right way
I won't be apart of this drawn out game
I never stay
Because you don't treat me the right way

You're holding my back against the sunshine
You might not think its over
But it's over for me
I need your reflection like a thin line
You might not think its over
But it's over for

I won't be strong and I won't brave
I never stay
Because you don't treat me the right way
I won't be apart of this drawn out game
I never stay
Because you don't treat me the right way

You don't treat me the right way

I won't be strong and I won't brave
I never stay
Because you don't treat me the right way
I won't be apart of this drawn out game
I never stay
Because you don't treat me the right way

You don't treat me the right way
