

# Blue October, Safe

Long be safe in these arms  
I will hold you down  
Keep you safe from harm  
Ride your fears to ground

But it won't account for much  
No, it won't account for much

Stand by me now, don't go leaving this heart,  
When I'm giving you all that I have  
Stand by me now, turn you mind from the past  
'Cos I'm giving you all that I have

Store your faith in these arms  
I will hold you down  
Keep you safe from harm  
Start from all you've found

But it won't account for much  
No, it won't account for much

Stand by me now, don't go leaving this heart  
When I'm giving you all that I have  
Stand by me now, turn you mind from the past  
'Cos I'm giving you all that I have

Stand by me now, don't go leaving this heart  
When I'm giving you all that I have  
Stand by me now, turn you mind from the past  
'Cos I'm giving you all
