

# Blue October, Ugly Side

I must have sneezed  
On knees I freeze  
I mean I just choked up  
Somehow I slept  
I dream, I mean  
I dreamt of nothing  
Able to breathe  
A sweet relief  
Now that you're here with me  
A northern degree  
Dove into me  
Now I'm recovering

[Chorus]  
I only want you to see  
My favorite part of me  
And not my ugly side  
Not my ugly side

Hook up a C.B. Wave a way  
For conversation flow  
I'm shoved in your cave, to wage this rage  
Don't let me go  
A kick and a scream is all that seems  
To mean a lot thus far  
I won't let you on my stage, my page  
You can't know  
Yet you have to know

[Chorus]  
So calm... and now it's dark  
I look for you to light my heart  
I'm in between the moon and where you are  
I know... I can't be far
