

# Blue October, While Easy Slips Away

Calm down baby, don't you stray now  
As good fortune walks away  
It's important on the other side  
What you do today  
You know you can go on  
And nothing can go wrong  
But I keep remembering...

Who used to know?  
Who used to go?  
You used to say  
Easy come while easy slips away

Heaven knows how hard the change is  
It's all left up to you  
You can buy a place in paradise  
With such a poignant view  
Now everything that was  
Is nothing more than loss  
But I'll keep the memory...

Who used to know?  
Who used to go?  
You used to say  
Easy come while easy slips away
