

Blue Pop, I Can

Hmmm

Hmmm

First time we met sounds like I can
and second time was just the same
Expecting your call, your voice again
I love the way you spell my name
New life, new love with this new man
I can believe in this new game
Traps in your eyes and in your arms
I can love you until the end
A little taste of better life
And I've got dreams of new life
Dream together at my will
I can't believe you could be real
I wish so much to be with you
I can believe it could be true
All day I'm just waiting for you
Walking around expecting you
New life, new love with this new man
I can believe in this new game
Traps in your eyes and in your arms
I can love you until the end

Hmmm

Hmmm

Hey, what's up man I can't explain
You give no call, you gave no sign
Oh, I don't want to understand
Let me believe that it's so fine
First time we met sounds like we can
Then once again it was a lie
And charming princess is gone again
So [?] princess just wanna die
