

# Blue Rodeo, Andrea

Earlier tonight I got a little scared  
I thought that I had failed  
I closed my eyes bowed my head and prayed  
I saw that all and everyone were one

Never knowing if Im lost  
Never knowing if Im found  
Chasing that long dark spiral  
Going down and down  
And down  
And down

Andrea Im so happy that you called  
Just to hear your voice  
Helped dissolve  
The paranoia  
Until the drugs wore off

I think the reason why  
Youre so high

Is that you know the truth  
I see it in your smile  
Your gentle eyes  
And your hollow tooth

Where some might despair  
You find a way to celebrate  
And you can see through me  
Just like I can see through you  
You see through me

Andrea Im so happy that you called  
Just to hear your voice  
Helped dissolve  
The paranoia  
Until the drugs wore off

Andrea you are not alone here  
You must be everywhere  
Like any savior might be  
At least a savior to me
