

# Blue Rodeo, Get Through To You

Looks like winter's never gonna leave this grey town  
I think it's going to snow all summer  
I think I'll wait until it gets a little warmer  
before I try to knock that chip off your shoulder  
I think I'll wait until it's warmer  
I just want to get through  
just want to get through to you  
just want to get through  
just want to get through to you  
I wish that I could get through  
don't want to stir up those feelings  
I wish you could read my mind 'cause then you'd see  
that I'd never take you for granted  
even though sometimes it feels like we're on different planets  
yeah I want to get through  
just want to get through to you  
yeah I just want to get through  
just want to get through to you  
get through to  
get through to you
