

# Blue Rodeo, Now And Forever

I don't know if I ever wanted  
The things you said we wanted together  
Now and forever  
Too many nights I'd lie awake  
Listening to every breath you'd take  
Like a stranger  
Feel so out of place here

I don't wonder what went wrong  
But I wish your memory would leave me alone  
Now and forever

I sit alone in this empty house  
And your voice just like a ghost  
It comes to me  
Chill passes through me  
I packed your clothes and photographs  
Sent your little treasures back to where you're living  
Guess now I'm forgiven

I can't believe it's true  
I thought I'd always be in love with you  
Now and forever

Solo

My life goes on just like before  
In and out of closing doors  
I don't love it  
But I learn to rise above it  
I found a girl now who will love me the way I want her to  
She don't shout it  
We don't ever talk about it

I can't believe it's true  
I thought I'd always be in love with you  
Now and forever
