

Blue Rodeo, Tell Me Baby

I don't know where to begin
Is there nothing I can do
To change the state I'm in
Tell me baby
How do I get back to you
Get back to you

And I know I've made a mess of it
Every promise betrayed
You say that I'll never change
So tell me baby
How do I get back to you
Get back to you

Is it fair to take a man
So deep into your heart
Then turn him away
Cause I couldn't change a single word
I'm just a fool who believes
His own lies

Is there something that I'm missing
Is it better left unsaid
Tell me how do we get it back
To the beginning
Tell me baby
How do I get back to you
Yeah tell me baby
How do I get back to you
Get back to you
Yeah tell me baby...
