

Blue, Sweet Thing

You show up, walking in the place like what what
I've never seen a girl like that tight
How could anyone deny your shine
Gotta make it work this time
Second time around - it's on tonight

What you do
When you move
Got me frozen to the spot
And I can't afford to stop

Chorus:
Sweet thing! You're as bad as you wanna be
Sweet thing! It ain't never been this hard for me
You're the brightest thing that I've ever seen
Diamonds blind ya - you with me?

Chorus:

Girl you, make me wanna fall in love true
Did you hear what I just said?
Can I find a way inside your head?
Check it , I ain't even frontin'
She said, She don't need a man but I'm
Gonna be the one to change her mind

What you do
When you move
Got me frozen to the spot
And I can't afford to stop

Chorus:

I've seen you, now I'm never turning back
I don't care anymore and that's a fact
Now, You are my everything
Since you came my way
Straight up, you're the only one I want
Right here is the chance to get it on
I want you to trust me...
I can't move when I'm around you

Chorus:
