## Blue System, 6 Years, 6 Nights

I wait six years - I wait six nights Wind this rope - a second chance I call your name like in a trance I'll run to you - I would die for you Divided hearts - divided soul I'm burning in a flame of hope I'll run to you - I would die for you You can run - you can hide Love is like a lie Can't you see? I wait six years - six nights for you I give my heart, my pride - that's true I'll wait - I'll wait till I need you I'll wait - I'll wait my dreams come true I wait six years -six nights for sure I give my heart - no fight before I'll wait - I'll wait down in the flame I'll wait - I'll wait see you again I wait six years - I wait six nights A missing heart - a lonely sky Above the clouds - I hear the cry I'll run to you - I would die for you A friend you win - a friend you lose But baby take a broken fool I'll run to you - I would die for you You can run - you can hide Love is like a lie Can't you see? Please forgive my heart Please forgive my heart
