

Blue System, Ballerina Girl

She read the news, she was alone
A one-way ticket flight to Rome
She left the town, a lonely child
Breaking out, she's running wild
She's dancing like the majesty
She said : "It's over now"
All the best things in life are free
She'll take it anyhow

Dream on, dream on, ballerina girl
On a clear day, you can see forever
Dream on, dream on, ballerina girl
I wanna stay with you together
Love me like there's no tomorrow
Love me, I'll take your sorrows
Oh, darling, here comes your fool again

A fools parade, no helping hand
Like Alice in the Wonderland
A girl like you, a boy like me
A broken flame, eternity
Losing more and more each day
She wins a sea of dreams
Baby, you will guide my way
Baby, oh it seems
