

Blue System, Dirty Money

There's one hope and that's no lie
Baby, tears they never dry
Oh, one day a lonely girl reaches loneliness
There's a face behind your face
But you try to win the race
You can run, but you can't hide from loneliness

That's dirty money, money, money
Don't take your love to town, my little honey
You are crucified, in the middle of the night
That's dirty money, money, money
Keep your body, oh, it isn't funny
I will testify, oh, there's no reason why

There's no friend you can rely

Only dreams, you have to fly
Oh, one day a lonely girl reaches loneliness
There's one name, but there's no heart
Oh, you want to tear apart
Oh, one day a lonely girl reaches paradise
