

Blue System, Don't Knock Me Out

Oh I'm changing my name, I'm changing my face
I'm telling the truth, I'm winning the race
I will beg and borrow my love you will see
'Cause love is a drug - gotta hold on me
I'm changing my jeans, I'm wearing a tie
And I am spending all my bucks
Just for one more try
I am stealing the stars from the sky - it is true
'Cause love is a drug - just for me and you

Don't knock me out, don't leave me this way
Oh I love you every day Jesamine
I saw you in my dream
Don't knock me out, don't gamble with me
Oh I tell you my love is real Jesamine
I saw you in my dream

Oh I'm changing my car and I'm changing my friends
And I pray to god that it never ends
I'm falling on my knees for your love you'll see
'Cause love is a drug - gotta hold on me
Oh I'm changing my life and I'm going to school
I'm giving you my house on 5th avenue
I'm stealing the moon from the sky - it is true
'Cause love is a drug - just for me and you
