

Blue System, Every Night, Every Day

Every night, every day - oh, I'm searching for my way
And I'm dreaming of you all my life
Every night, every day - oh, believe me oh I pray
Set the dream to your heart to survive
Every night, every day - oh, I'm searching for my way
And I'm dreaming of you all my life
Every night, every day - oh, believe me oh I pray
Set the dream to your heart to survive
I said - promised paradise
Every night, every day baby, oh I pray
Oh she lied - when she cried
She can not hide
She was sad, so sad
I saw love in her eyes
And my paradise
Every night, every day - hard for me to say
I was blind, so blind
Couldn't realize that my heart, my heart was hypnotised in you
Every night, every day - oh, I'm searching for my way
And I'm dreaming of you all my life
Every night, every day - oh, believe me oh I pray
Set the dream to your heart to survive
Every night, every day - oh, I'm searching for my way
And I'm dreaming of you all my life
Every night, every day - oh, believe me oh I pray
Set the dream to your heart to survive
Oh, I cry, I cry forever
Why can't we stay together ?
Can't you see my life is in your hands ?
Oh, I cry, cry forever
Baby, I love you ever
Can't you see my life is in your hands ?
Can't you see my life is in your hands ?
Oh it hurts that she's gone
Feeling so alone
Every night and every day - hope to awake
Come back - please come back
Always in my head
Only you makes me blue
Whatelse can I do
Can't I find in your mind
You're the lonely kind
Every night and every day
Believe me when I say
I need you, just you - couldn't realize
That your heart in my heart was so specialised in me
