## Blue System, Every Night, Every Day

Every night, every day - oh, I'm searching for my way

And I'm dreaming of you all my life

Every night, every day - oh, believe me oh I pray

Set the dream to your heart to survive

Every night, every day - oh, I'm searching for my way

And I'm dreaming of you all my life

Every night, every day - oh, believe me oh I pray

Set the dream to your heart to survive

I said ..... - promised paradise

Every night, every day baby, oh I pray

Oh she lied - when she cried

She can not hide

She was sad, so sad

I saw love in her eyes

And my paradise

Every night, every day - hard for me to say

I was blind, so blind

Couldn't realize that my heart, my heart was hypnotised in you

Every night, every day - oh, I'm searching for my way

And I'm dreaming of you all my life

Every night, every day - oh, believe me oh I pray

Set the dream to your heart to survive

Every night, every day - oh, I'm searching for my way

And I'm dreaming of you all my life

Every night, every day - oh, believe me oh I pray

Set the dream to your heart to survive

Oh, I cry, I cry forever

Why can't we stay together?

Can't you see my life is in your hands?

Oh, I cry, cry forever

Baby, I love you ever

Can't you see my life is in your hands?

Can't you see my life is in your hands?

Oh it hurts that she's gone

Feeling so alone

Every night and every day - hope to awake

Come back - please come back

Always in my head

Only you makes me blue

Whatelse can I do

Can't I find in your mind

You're the lonely kind

Every night and every day

Believe me when I say

I need you, just you - couldn't realize

That your heart in my heart was so specialised in me
