

Blue System, Hello America

Oh I know everything will turn out fine
That's no lie - oh it's my time
Don't break my lonely heart, baby baby
All I want is everything
Restless heart and diamond rings
Don't play with my heart
Oh give me one more chance to win
Baby, dreams are not a sin

Hello America - I know I'll have to go
I'm not that super tough guy from the midnight show
Hello America - I feel like going home
I still believe in fairytales and my chance will come

Oh wheels they are turning - turning tonight

On the wings of a love, fly with me
Take me as your souvenir
Don't break my lonely heart, baby baby
Lock my heart - throw the key
Drowning in my fantasy
Don't play with my heart, baby baby
Give me one more chance to win
Baby, dreams are not a sin
