

Blue System, It's All Over

I just can't hide my feelings
It's just the way I am
This love has such a meaning
We'll make it if we can

Tell me baby, where did we go wrong
Sooner or later we'll end up on our own

It's all over, all over, all over again
You said to me, sorry, can't we just be friends
It's all over, all over, it happened again
No time to ignore it, we'll come to the end

Tomorrow is forever
Love is a sacrifice
There'll never be a never
Halfway to paradise

Tell me baby, why you'll say goodbye
Just for the maybe, let's give it just one more try

It's all over, all over again
You said to me, sorry, can't we just be friends
It's all over, all over, just look what you've done
Oh, sooner or later, we're all alone
We're all alone
