

Blue System, Lady Unforgettable

Oh, it's five o'clock and I cannot sleep
You were in New York and my heart is weak
I'm watching you on this photograph
I'm the biggest fool and I hear your laugh
Lady, careless memory
Lady, be my guarantee
What a difference it makes
Alone again
Lady I call your name
Oh, lady unforgettable, hold on me
Oh, lady unforgettable, can't you see
Oh, I'm losing my heart
And I'm losing my mind
But a lonely heart, it can't survive
Oh, lady unforgettable, talk to me
Oh, lady unforgettable, can't you see
I got what I want but I lost what I had
It's a crazy world when a love goes bad
In this bed of fire I feel loneliness
And my lost desire of your sweet caress
I'm too proud to beg and too weak to cry
I'm alone again
It's my last goodbye
Lady, it's emergency
Lady, oh, please come back to me
Emotion of fire is burning inside
Lady, don't lose your pride
