

Blue System, Madonna Blue

Oh, come on, love me, you can feel the fire
I'm drawing in my lonely tears
How many hearts are lost in my desire ?
See all my love and fears
That's the way babe - you want my sweet devotion
I'll be there if you want me
Come see my heart is burning in emotion
I'm not your souvenir

Madonna Blue - come kiss me, kiss me baby
Madonna Blue - touch me, touch me now
I'm gonna make you feel like a lady
I know heaven must have send you
Madonna Blue - come love to love me baby
Madonna Blue - oh, feel my heart tonight
My first hello, oh, I want you my lady
Is your love to good to be true ?

Live for love baby - the diamonds are forever
When the nights begin to drive me down
The day will be good - we have it so good together
Love makes the world go round
Don't talk to strangers - only to surrenders
Oh baby, I'm too young to die
Oh hear my heart - come on, love me tender
Come with me where clouds fly
