

# Blue System, Magic Symphony

Breaking down the fences - breaking down the rules  
The reason for my heartbeat - the mysteries of fool  
I talk to my dream I hear a voice, it was calling  
And I couldn't stop to steam  
Cause my wild horse was falling (It's a wish)  
Give me freedom in my dreams (What a wish)  
Give me shelter, yes it seems (Yes it seems)  
Bleeding heartaches ever cry  
I wanna rock you baby 'till I die  
It's a magic symphony  
Baby, when you're lying next to me  
I hear violins, You know what it means just for tonight  
I hear a symphony of love I see the stars - the moon above  
I hear your heart - I feel your touch deep down inside  
Breaking down the fences - breaking down the rules  
The reason for my heartbeat - the mysteries of fool  
I talk in my sleep  
There was a mystical devotion  
I hear the rhythm, heard the beat  
Unknown soldiers in emotion (It's a dream)  
Give me freedom in my dreams (What a wish)  
Give me shelter - yes it seems (Yes it seems)  
Bleeding heartaches ever cry I wanna rock you baby 'till I die
