

Blue System, New York Berlin Paris

It's too late to stop her now

In her red shoes

She believes in fairytales - you can't stop the blues

Everybody loves that girl - everybody on this world

Oh, she has it all - she got sex like a dreammachine

Everynight she's dancing like a fire in my dream

She's still a mystery

Oh, she wants everything

Was it just a dream on golden wings ?

She danced in Rio and she danced in Tokyo

On every stage she's doing her midnight show

She danced in N.Y., Berlin, Paris all the time

She danced in Rio and she danced in Tokyo

In every town she's dancing her succesful roll

She danced in Rio, N.Y., Berlin, Paris all the time

Oh, it's too late to stop me now

Let the music die

Find the magic of the night you win to live alive

Everybody loved that girl - everybody on this world

She danced the uptempo rhapsody like in the snow

Every night she temped the fire baby she would know

She's still a mystery - she wants everything

Was it just a dream on golden wings ?
