

Blue System, Sister Cool

Down in the flame - down in the passion

Oh, I'm a slave to love

I play no game - it's all obsession

Words are not enough

Oh, give me love - give me that special feeling

Oh, give me all - let us rocking and reeling

Oh, give me sex - give me hope for this game tonight

But baby don't be sister cool

Oh, I'll make good love to you

I waited every night

I waited every day

Baby, come tell me you're making my day

But baby don't be sister cool

I show you what a love can do

You gave me such golden days

You gave me such golden nights

Don't let

Kissing the fool - kiss in the fire

The closer we can get

Don't break the rules of deep desire

Sleeping in your bed

Oh, give me a chuck - give me a sweet sensation

Oh, give me all - all I want is good vibration

Oh, give me sex give me love for this sweet, sweet night
