

Blue System, Thank God, It's Friday Night

Thank God it's Friday night
We're together - we're side by side
Thank God it's you and me
All together in a family

Thank God - Thank God - Thank God
It's Friday night
Thank God - Thank God - Thank God
Oh side by side

40 nights - I loved you 40 nights
Like satellites, we need no alibis
But in your heart, you had a plan
But in my dream, I was your man
And if you ever fall in love

40 days - I loved you 40 days
Believed in you - Oh God I prayed and prayed
But in this dream - you fool my heart
We're skin to skin - you broke apart
And I will never fall in love

Why you promised me love ?
Why you promised me love ?
Why you promised me love ?
Why you promised me love ?
