

Blue System, Two Hearts Beat As One

Babe, I'm singing just for you - a serenade in blue
See my emotion
Oh you, you kiss me no return
I see the candles burn
Feel my devotion
Oh, I see my heart is tumblin down
Baby, you make this whole world go around
Baby, I know babe what should never be
Kiss me, hold me baby till eternity

Oh lover - two hearts beat as one
It's like burning fire
Lover - lady of the dark
Can't you feel the desire
Come with me to a serenade in blue
Oh, don't set me free
I will kiss you - I will give you heaven too

Babe, I'm not a souvenir
I'm drowning in my tears
See my emotion
Oh, that's no way to say goodbye
Silence starts to cry - feel my devotion
Oh, why can't I find the paradise ?
Baby, I know that good love never dies
Baby, now - oh, this love will turn out fine
Kiss me - hold me baby
Now it's our time
