

# Blues Brothers Band, I wish you would

Early in the morning 'bout the break of day  
That's when my baby went away  
Crying and pleading won't do no good  
Come back baby, I wish you would  
I love you baby, I can't help myself  
I wouldn't mistreat you for nobody else  
Huggin and kissin late at night  
Really make me, baby, feel alright  
Tell me now baby what you trying to do  
Trying to love me and some other man too  
Staying out drinking all night long  
Cold now, baby, I wanna come home  
Please pretty baby give me one more chance  
You know I love you, wanna be your man  
Crying and pleading won't do no good  
Come back baby I wish you would  
Huggin and kissin late at night  
Really make me, baby, feel alright
