

Blues Explosion, Blowing My Mind

Get up and greet the brand new day
Feelin' so good
Everything's comin' up our way
Baby, you got on that favorite dress of mine
You lookin' so good now baby
Oh I can see everything
In all that mess with the sunshine
You're so fine, more than fine
The smile in my eye
I said you're blowin' my mind

I'm gonna think about it
Very careful like
And figure it all out
I've got something real important
I want to say right now
Without a doubt
No doubt
Cuz you see, my mind is made up
And my aim will be true
Baby, I said I'm in love with you
You're so fine, more than fine
The smile in your eyes
I said you're blowin' my mind

Baby, what do you want me to be?
I'm gonna bend over backwards
If it will bring you to me
Just a little bit closer now

That's some supersonic soul
Goin' way down to the bottom
Make me feel like I'm gonna lose control
Crazy love, that's some of that crazy love
Make me lose my mind
Cuz you're so fine
You're one of a kind
You're blowin' my mind
