

# Blues Pills, Jupiter

When the earth no longer turns  
And the sun cannot be seen  
If your debts are all behind  
Maybe joy you'll finally see

You've got to stay, my baby  
Stay, though it's bothering me

Oh, I hope, I hope you will see  
How this world should have been  
Oh, I hope, I hope you will see  
How this world should have been

Have you listened to the sounds?  
The other planets' screams  
Soon the ocean's icy water  
Drowns the dreams we see

Stay, Jupiter  
You are the brother above  
Stay, Jupiter  
I wanna show you my love.

Oh, I hope, I hope you will see  
How this world should have been  
Oh, I hope, I hope you will see  
How this world should have been.

Oh, child  
Children of time  
Has come  
The mother is crying  
It won't be long  
Till she will leave us,  
Leave us behind

And I hope, I hope you will see  
Before she leaves,  
Leave us behind  
Oh, I hope, I hope you will see  
How this world should have been.

The circle of time /3x
