

Blues Traveler, All For You

finally i figured out,
but it took a long long time.
now theres a turn about
maybe cause im tryin
theres been times. (im so confused)
all my roads(they lead to you)
i just cant turn and walk away.

its hard to say what it is i see in you
wonder if ill always be with you
words cant say it,
i cant do, enough to prove
its all for you.

and i thought id seen it all
cause its been a long long time.
oh but ill trip and fall
wonder if im a live
theres been times (im so confused)
all my roads (they lead to you)
just cant turn and walk away.

its hard to say what it is i see in you,
wonder if ill always be with you.
words cant say it,
i cant do, enough to prove,
its all for you.

rain comes pouring down...
falling from blue skies.
words without a sound
comming from your eyes.

finally i figured out,
but it took a long long time
oh now theres a turn about
maybe cause im tryin.
theres been times (im so confused)
all my roads (they lead to you)
just cant turn and walk away...

its hard to see what is i see in you
wonder if ill always be with you
words cant say it
i cant do enough to prove
its all for you

well its hard to say what it is i see in you
wonder if ill always be with you.
words cant say it,
i cant do, enough to prove
its all for you
