

# Blues Traveler, Time Is Free

You recall the day when everybody stopped to see  
The blazing sun  
Did you really see the way they all looked up and asked that question  
"why? "

Boom boom, bang bang look out here it comes again  
Can't stop the way it flows  
It never knows  
Why it goes:  
Time is free  
Time is free

You been known to take the time to look and want  
You been known to take the time to stop the want  
That's the place where we all go  
I don't know why we do it

Never any reason to be not free  
Play a little music

You recall the day when everybody stoped to see  
The blazing sun  
Did you really see the way they all looked up and asked that question  
"why? "

Boom boom, bang bang look out here it comes again  
Can't stop the way it flows  
It never knows  
Why it goes  
Time is free  
Time is free  
Time is  
Time is free
