

Blur, The Narcissist

Looked in the mirror
So many people standing there
I walked towards them into the floodlights
I heard no echo
There was distortion everywhere
I found my ego
I felt rubato standing there
Found my transcendent
It played in mono painted blue
You were the pirot
I was the dark room
I'm going to shine a light in your eyes
You'll probably shine it back on me
But I won't fall this time
With godspeed I'll heed the signs
I saw the solstice
The service station on the road
I took the acid
Under the white horses
My heart it quickened
I could not tear myself away
Became addiction
If you see darkness look away
I'm going to shine a light in your eyes
You will probably shine it back on me
But I won't fall this time
With godspeed I'll heed the signs
Oh glorious world
Oh potent waves valleys gone wild
Connect us to love and keep us peaceful for a while
I'm going to shine a light in your eyes
You will probably shine it back on me
But I won't fall this time
With godspeed I'll heed the signs
I'm a shine a light in your eyes
You probably shine it back it back on me
But I won't fall this time with godspeed I'll heed the signs
But I won't fall this time with godspeed I'll heed the signs
