

Blur, Where'd You Go?

Where'd you go?
Dark eyed traveller
I almost feel you breathe
Where'd you go?
Dark eyed traveller
Can you even hear me speak?

You make things bright
When they took the night away
Led me inside and kissed all my tears away
Said you were here to stay

Where'd you go?
In the morning
When I was way down with dream
Where'd you go?
In the morning
When fever pulled me down stream
You made things bright
And you took the night away
Lend me your eyes and show me a brand new way
Now I just feel dead today.
