

Bo Bice, Witness

Everyday I find another way something more
To get me through this life life life
You don't believe in what you see
Tell me baby does it make you blind blind blind
That ain't the way it is

I need a witness (I need a witness)
When you talk to me (When you talk to me)
I need a witness (I need a witness)
Won't you set me free
I need a witness (I need a witness)
When you talk to me (When you talk to me)
I need a witness baby (I need a witness)
Now won't you set me free

All these people that travel along
now they travel along the road road road
Now you tell me how to plant my seed
Then you tell me baby it won't grow grow grow
Oh, that ain't the way it is

I need a witness (I need a witness)
When you talk to me (When you talk to me)
I need a witness (I need a witness)
Won't you set me free
I need a witness (I need a witness)
When you talk to me (When you talk to me)
Oh, I need a witness baby (I need a witness)
Now won't you set me free
Oh, set me free, child
C'mon

Listen to me, people
People die when we don't try we walk away
Don't you see there's a better way of life
People die when we don't try we walk away
Don't you see there's a better way people pray
People die when we don't try we walk away
Don't you see there's a better way of life
People die when we don't try we walk away

Yeah
I need a witness (I need a witness)
When you talk to me (When you talk to me)
I need a witness, baby (I need a witness)
Won't you set me free
Yeah, set me free!
I need a witness (I need a witness)
Now won't you talk to me (When you talk to me)
I need a witness baby (I need a witness)
Now won't you set me free
Yeah, set me free!

Said, Nah nah nah nah nah nah nah
Tell me what you do baby
Nah nah nah nah nah nah nah
Tell me what you do child
Nah nah nah nah nah nah nah
Tell me what you do baby
Nah nah nah nah nah nah nah
I need a witness, baby
