

Bo Pepper, Good Cop Bad Cop

What do you know
It's the same old, same old
Way that it goes
(And just between us two)
What do you know
It's the same old, same old
Way that it goes

Come to me and know my name
I was the one you turned your back on today
Come to me and know my style
Sit down a second, break it down for a while

And so good cop bad cop
They build you up and break you down
Oh, when you think they'll have to play you
Like a record sound
And so good cop bad cop
They build you up and break you down
Oh, when you think they'll have to play you
Like a record sound

What do you know
It's the same old, same old
Way that it goes
(And just between us two)
What do you know
It's the same old, same old
Way that it goes

Shut your mouth and clench your fist
Those pretty girls are powerless to resist
Oh you're so eager to please
I like you better when you're down on your knees

And so good cop bad cop
They build you up and break you down
Oh, when you think they'll have to play you
Like a record sound
And so good cop bad cop
They build you up and break you down
Oh, when you think they'll have to play you
Like a record sound

And so good cop bad cop
They build you up and break you down
Oh, when you think they'll have to play you
Like a record sound
And so good cop bad cop
They build you up and break you down
Oh, when you think they'll have to play you
Like a record sound

What do you know
It's the same old, same old
Way that it goes
(And just between us two)
What do you know
It's the same old, same old
Way that it goes

Whoo!

And so good cop bad cop

They build you up and break you down
Oh, when you think they'll have to play you
Like a record sound
And so good cop bad cop
They build you up and break you down
Oh, when you think they'll have to play you
Like a - play you like a goddamn record sound
(What do you know
It's the same old, same old
Way that it goes)

Play you like a goddamn record sound
(What do you know
It's the same old, same old
Way that it goes)
