

# Bob Marley, I Know A Place

When the whole world lets you down  
And there's nowhere for you to turn  
Cause all of your best friends let you down-own-own  
And you tried to accumulate  
But the world is full of hate  
So all of your best thoughts, just adrift through space  
I know a place where we can carry on  
I know a place where we can carry on  
We can carry on, we can carry on  
We can carry on, we can carry on  
And this people like you, ooh people like me  
People need to be free yeah  
There's a place in the sun where there is love for everyone  
Where we can be yeah  
I know a place where we can carry on  
I know a place where we can carry on  
We can carry on, we can carry on  
We can carry on, we can carry on  
Yeah when the whole world lets you down  
And there's nowhere for you to turn  
Cause all of your best friends have a let you d-down, down-own-own  
And you tried to accumulate  
But the world is full of hate  
So all of your best thoughts, just adrift through space  
I know a place where we can carry on  
I know a place where we can carry on  
We can carry on, we can carry on  
We can carry on, we can carry on  
We can carry on, we can carry on  
We can carry on, we can carry on...
