

Bob Schneider, Moon Song

I like the sun
When it shines
On the moon
At night

I like the way
The way that you smile
When you feel
Just right

La la la la

I like the wind
When it blows
Me close
To you

I like the way
That you hold
Me the way
You do

La la la la

I like the way
That you say
That you'll always
Stay

I like the sun
When it shines
On the moon
This way
