

# Bob Schneider, Version Mary

Version Mary comes on strong  
Hold my breath the whole night long  
In the place where I don't care  
Version Mary take me there

I'll take a chance & climb aboard  
The ship that sails unto your shore  
You always take the highest road  
Always carry the hardest load

Version Mary let me feel  
So real

Version Mary snake pit gravy  
Only you know how to save me  
Rope a dope & rub a dub  
Wrap me up in your love

Version Mary where are you now  
It sure would help if you could show me how  
To make it through this night alone  
All trapped inside these bones

I'll take a chance & climb aboard  
The ship that sails unto your shore  
You always take the highest road  
Always carry the hardest load
