

Bob Seger, Living Inside My Heart

Words and music by Bob Seger

B-side of "Like A Rock" and on the soundtrack to the movie "About Last Night"

When the sun came up this morning
And she smiled her smile for me
I felt it for the first time
Something deep inside of me
So you can take your midnight ramblin' boys
And you can keep your winding roads

She's livin' inside my heart now
Livin' inside

Oh there's an easiness about her
There's a softness in her way
But she gets me through the hard times
We get closer everyday
I know I'll never be alone now boys
Cause even if I'm far away

She's livin' inside my heart now
Livin' inside
yeah

And I don't know what I did to deserve her
But I'll tell you this my friend
I'm never gonna lose her
Never gonna lose her
Cause every night

She's livin' inside my heart now
Livin' inside
