

# Bob Welch, Future Games

Written by Bob Welch.

I did a thing last night  
You know those future games  
I turned off all the lights  
Oh, the future came  
You were by my side  
Will you explain-oh yeah  
Real rhyme or reason for those future games

Now you were there last night  
And oh were you afraid  
Of things we'd come upon  
While playing future games  
But baby it's alright and so have faith  
Oh yeah, you invent the future that you want to face

How many people sit home at night  
Wondering if they will be here tonight  
Wondering if children will he bring to the light  
Inherit the world, or inherit the night  
Wondering if neighbors are thinking the same  
All of the wild things tomorrow will tame  
Talking of journeys that happen in vain

Well I know I'm not the only one  
To ever spend my life sitting playing future games

You better take your time  
You know there's no escape  
The future sends a sign  
Of things we will create  
Baby it's alright  
And so have faith  
Oh yeah, you invent the future that you want to face

How many people sit home at night  
Wondering if they will be here tonight  
Wondering if children will he bring to the light  
Inherit the world, or inherit the night  
Wondering if neighbors are thinking the same  
All of the wild things tomorrow will tame  
Talking of journeys that happen in vain

And I know I'm not the only one  
To ever spend my life sitting playing future games

Future games...  
Future games...  
Future games...  
Future games...

I know I'm not the only one...  
I know I'm not the only one...  
I know I'm not the only one...  
I know I'm not the only one...  
I know I'm not the only one...  
I know I'm not the only one...  
I know I'm not the only one...  
I know I'm not the only one...
