

# Bob Welch, Little Star

Written by bob welch.

Now I dont care if I get burned  
Loving you is what comes first  
Although youve heard a thousand lies  
Please believe me for tonight

Do you know youre magic  
Yeah, you little star  
Walkin? through the world  
Breakin? peoples heart  
Do you know youre magic  
Yeah, you little star  
Well, shine on, shine on

Back and forth across my heart  
I wont forget you, little star

Little star

I dont care if I get burned  
Loving you is what comes first  
I dont care if I get burned  
Loving you

Although youve heard it a hundred times  
Believe me, darling, so have i  
But now lets live just for tonight  
And let tomorrow take ist time

Repeat chorus

Back and forth across my heart  
I wont forget you, little star  
Little star
