

Bobby Bare, Bathroom Tissue Paper Letter

I drive all day at hauling freight until I get my fill
And after five I'm always found at Dottie's Bar and Grill
I talked with all the local crowd a couple hours more
Then head for home where she is always waiting at the door

When I got home this evening about a half past ten
And found she wasn't waiting so I let myself on in
I headed for the icebox to get myself a beer
And found that little note that said my baby wasn't there

There was a bathroom tissue paper letter hanging on the wall
She said I just can't take no more and you can have it all
I'm taking what good sense I've got and leaving you behind
And you can take this letter and wipe me from your mind
Yeah you can take this letter and wipe me from your mind
