

# Bobby Bare, Lullabys, Legends and Lies

Gather round fellows I'll tell you some tales about murder and blueberry pies  
And heroes and hells and bottomless wells and lullabys legends and lies  
And gather round ladies come sit at my feet I'll sing about warm sunny skies  
There's mermaids and beans and lovin' machines in my lullabys legends and lies  
Lullabys legends and lies and lies lullabys legends and lies  
I'll sing you a song then I'll shuffle along with my lullabys legends and lies

I may make you wonder I may make you smile I may bring the tears to your eyes  
But when I disappear Lord you'll wish I was here with more lullabys legends and lies  
So open the bottle and pass a guitar and look in my warm lovin' eyes  
I'll take you to places you ain't been before with my lullabys legends and lies  
Lullabys legends and lies...
