

Bobby Bare, Talk Me Some Sense

Talk me some sense talk me some sense
Put a song of love and laughter on your face
Talk me some sense talk me some sense
Cause the way you're talkin' now is a disgrace

I've heard enough o' your talk about the world that is to be
You say it's sick and sinful and then any fool should see
You sing songs of agitation and usin' funny rhymes
The whole new trend and your preachin' friend is a great big waste of time
Talk me some sense talk me some sense...

Just call me a illiterate or any other name
But no matter how you bug me up I'll tell you without shame
Don't know where your world is but it sounds quite a mess
But here on earth we waste our time on things like happiness
Talk me some sense talk me some sense...
