

# Bobby Bare, You Made A Believer Out Of Me

Lovers yes I guess I've had a few  
I've played the game like lovers do in the night alone  
Feelin's they never meant a thing to me  
I never knew how love could be until you came along  
You made a believer out of me I can see it I can feel it  
You made a believer out of me how could I believe that it's not true after lovin' you  
[ steel ]  
Forever was just a word I used to say  
Love was just a game I played that ended with the dawn  
Funny with all the love that I've been through  
Now I know till I met you I never loved at all  
You made a believer out of me...
